Professional Summary

Software Engineer and Co-Founder at SkyTech Developers, pursuing a BSc in Computer Software Engineering at UET Mardan. Builds full-stack, AI-integrated web apps with React, Node.js, Express, and MongoDB - shipping projects like AI-powered developer tools and real-time platforms using Google Gemini, JWT/OAuth, and cloud deployment. Currently expanding into applied AI as a Machine Learning Intern at FlyRank AI.

Professional Experience

Machine Learning Remote intern - FlyRank AI

Jul 2026 - Present

- Completing FlyRank AI's ML internship track: building a reproducible pipeline (data prep, baseline modeling, training, evaluation) on real anonymized Google Search data using Python, pandas, and scikit-learn in Colab.
- Progressing toward a capstone in embeddings, clustering, and intent classification.

MERN Stack Developer - SkyTech Developers

Feb 2025 - Present

- Lead full-stack development using the MERN stack.
- Deliver backend systems, REST APIs, and JWT-secured, role-based architectures for global clients using Node.js, TypeScript, PostgreSQL, and MongoDB.
- Own the company's technical direction.

Web Development Intern - Qwetrum Technologies

Jun 2026 - Jul 2026

- Gained hands-on experience contributing to real-world software development projects in a professional team environment.

Projects

GitMentor | AI-Powered Developer Growth Platform | [GitHub Repository](#)

- Full-stack MERN platform (React 19, Express 5, MongoDB) that connects via GitHub OAuth to generate personalized project roadmaps and AI-driven code reviews using Google Gemini.
- Added gamification (12 GitHub-stat-based badges) and Google Calendar sync for scheduled coding sessions.

AI Career Coach | Recruiter-Level Career Analysis Tool | [GitHub Repository](#)

- React/Node.js app that analyzes GitHub profiles, portfolios, and resumes to generate an AI profile score, skill radar chart, and job-role recommendations using Gemini 2.5 Flash.
- Built with a privacy-first design - API keys processed per-request, never stored or logged.

NexTalk | AI-Powered Real-Time Chat Application | [GitHub Repository](#)

- Full-stack chat app (React, Node.js, Express, MongoDB, Socket.io) built and deployed solo in 7 days with JWT auth and real-time messaging.
- Integrated 6 Gemini AI features (tone analysis, smart replies, summaries, translation, mood tracking); deployed via Vercel + Render.
